

THE STATE OF UTAH
OFFICE OF STATE ENGINEER
SALT LAKE CITY

HUBERT C. LAMBERT
STATE ENGINEER

May 20, 1966

Mr. Raleigh Williams
35 South 5th East
Spanish Fork, Utah

Dear Mr. Williams:

RE: Spanish Fork

The commissioner on the Spanish Fork River has indicated that you feel there are rights to divert water from the Spanish Fork River that are associated with the land you own in the canyon.

We are able to determine that you do have storage water that will enable you to divert directly from the Spanish Fork River and irrigate your land. However, we are unable to locate, on file in this office, documents that would indicate there is a direct flow right associated with the property.

This office feels that until some future time when you are able to demonstrate to this office that you do have direct flow rights your diversion must be limited to that which you are entitled to by virtue of your storage water.

If you have any questions and we can be of assistance to you by reviewing the problem please feel free to call upon us.

Sincerely,

Hubert C. Lambert
